

Report Number: 173

SEN: Autistic Spectrum Disorder

EHCP REPORT #173

Section A: Views, interests, and aspirations

The student is a 13-year-old male who enjoys coding, digital animation, and learning about space exploration. He expresses a desire to work in software engineering in the future. He finds large, unstructured social environments overwhelming and prefers working in quiet, predictable settings. He aspires to gain the qualifications necessary to attend a specialist college for computing.

Section B: Special educational needs

1. **Autistic Spectrum Disorder (ASD):** Challenges with social communication, sensory processing (auditory and visual), and cognitive flexibility.
2. **Speech, Language, and Communication Needs (SLCN):** Difficulties with pragmatic language, understanding figurative speech, and processing complex verbal instructions.

Section C: Health needs

The student experiences heightened anxiety in response to sensory overload, which can manifest as physical withdrawal. He requires a low-arousal environment to maintain emotional regulation.

Section D: Social care needs

The student requires support to develop age-appropriate social interaction skills and to navigate community settings safely, as he currently lacks the social awareness to identify potential risks in unstructured public environments.

Section E: Outcomes sought

1. **Communication:** To independently use visual prompts or clarification strategies when he does not understand a verbal instruction.
2. **Social/Emotional:** To increase his tolerance for unstructured time by 10 minutes per term using a structured "safe space" protocol.
3. **Academic:** To achieve age-related expectations in core subjects through the use of scaffolded resources and reduced sensory input.

Section F: Special educational provision

1. **Communication:** Weekly small-group sessions with a Speech and Language Therapist (SLT) to focus on social pragmatics.
2. **Environment:** Access to a designated "quiet zone" during unstructured times.
3. **Curriculum:** Provision of "chunked" instructions (written and verbal) and access to a laptop for extended writing tasks to mitigate SLCN barriers.
4. **Staffing:** Access to a key worker for daily check-ins to support emotional regulation and organizational planning.

Section G: Health provision

Access to a sensory diet plan developed by an Occupational Therapist, to be implemented by school staff to manage sensory regulation throughout the school day.

Section H1: Social care provision (CSDPA 1970)

Provision of a personal assistant for 3 hours per week to support community access and social skill development in real-world settings.

Section H2: Additional social care provision

Access to local authority-funded holiday activity schemes that provide a low-arousal environment for children with ASD.

Section I: Placement

[Name of School], a state-funded secondary school with a dedicated resource base for students with ASD and

SLCN.

Section J: Personal budget / direct payments

A personal budget is not requested at this time; provision is managed through the school's delegated funding and local authority commissioning.

Section K: Assessment evidence and advice

- Educational Psychologist Report (dated [Date])
- Speech and Language Therapy Assessment (dated [Date])
- Occupational Therapy Sensory Profile (dated [Date])
- School Progress Reports and Annual Review documentation.
