

Report Number: 317

SEN: Profound & Multiple Learning Difficulty

EHCP REPORT #317

Section A: Views, interests, and aspirations

[Student Name] is a happy 7-year-old girl who enjoys sensory stimulation, particularly music therapy and tactile play involving soft textures. Her parents aspire for her to develop a reliable method of communication to express her preferences and to achieve maximum possible independence in her daily self-care routines. They want her to be included in all school activities and to feel safe and valued within her peer group.

Section B: Special educational needs

[Student Name] has Profound and Multiple Learning Difficulties (PMLD). She requires high levels of support to access the curriculum and to engage with her environment. She has a secondary need of Physical Disability (PD), which significantly impacts her mobility and postural control. She is non-verbal and requires intensive support to develop functional communication and cognitive engagement.

Section C: Health needs

[Student Name] requires support with complex physical needs, including the management of postural positioning to prevent contractures. She requires assistance with personal care and feeding, and monitoring for any health-related complications associated with her physical disability.

Section D: Social care needs

[Student Name] requires support to access community activities and short breaks to facilitate family wellbeing. She requires equipment and adaptations at home to ensure her safety and to support her physical development.

Section E: Outcomes sought

1. To develop a consistent, reliable method of communication (e.g., eye-gaze or switch-access) to express choices.
2. To increase tolerance of different sensory experiences and engage in 1:1 interaction for sustained periods.
3. To improve postural stability and physical comfort through a consistent physiotherapy programme.
4. To participate in all school activities with appropriate physical support and adaptive equipment.

Section F: Special educational provision

- A highly differentiated, sensory-based curriculum delivered in a special school setting.
- Daily 1:1 support from a teaching assistant trained in PMLD and manual handling.
- Regular access to Speech and Language Therapy (SALT) to develop augmentative communication.
- Access to sensory integration equipment and assistive technology (e.g., switches, eye-gaze).
- Small group or 1:1 sessions focusing on sensory regulation and engagement.

Section G: Health provision

- Annual review of physiotherapy and occupational therapy programmes.
- Provision of specialist seating and standing frames as recommended by the OT.
- Staff training on the safe management of physical needs and postural care.
- Access to school nursing services for health monitoring.

Section H1: Social care provision (CSDPA 1970)

- Provision of specialist equipment at home to support mobility and personal care.
- Access to short-break services to support the family unit.

Section H2: Additional social care provision

- Support from a social worker to coordinate multi-agency care and ensure family access to relevant disability benefits and support networks.

Section I: Placement

[Student Name] will attend a state-funded special school that specializes in meeting the needs of pupils with PMLD and physical disabilities.

Section J: Personal budget / direct payments

A personal budget is available to support the provision of short breaks and specific home adaptations as identified in the social care assessment.

Section K: Assessment evidence and advice

- Educational Psychologist Report (dated [Current Year])
- Physiotherapy Assessment (dated [Current Year])
- Occupational Therapy Report (dated [Current Year])
- Speech and Language Therapy Assessment (dated [Current Year])
- Parental and Student Views (collected [Current Year])
