

Report Number: 362

SEN: Specific Learning Difficulty

EHCP REPORT #362

Section A: Views, interests, and aspirations

Leo is an 8-year-old boy who enjoys building complex structures with construction blocks and has a keen interest in space exploration. He expresses that he finds the classroom environment "too loud" and sometimes feels frustrated when he cannot get his ideas onto paper as quickly as he thinks of them. His parents aspire for Leo to develop the confidence to participate in group activities and to achieve age-expected levels in literacy by the end of Key Stage 2.

Section B: Special educational needs

1. **Specific Learning Difficulty (SpLD):** Leo experiences significant challenges with phonological processing and working memory, impacting his ability to decode text and structure written work.
2. **Autism Spectrum Disorder (ASD):** Leo experiences difficulties with social communication, sensory processing (specifically auditory sensitivity), and cognitive flexibility, which can lead to anxiety during transitions.

Section C: Health needs

Leo has heightened sensory sensitivity to high-frequency noises, which can trigger physical distress. He requires a sensory-friendly environment to maintain emotional regulation.

Section D: Social care needs

Leo requires support to develop social interaction skills and peer-to-peer relationship building. He requires consistent routines to manage anxiety in social settings outside of the home.

Section E: Outcomes sought

1. **Literacy:** Leo will use assistive technology or scaffolded writing frames to produce independent written pieces of 3–5 sentences by the end of the academic year.
2. **Social/Emotional:** Leo will independently use a "calm-down" strategy (e.g., sensory break) when feeling overwhelmed, reducing the frequency of sensory-related outbursts.
3. **Communication:** Leo will initiate a conversation with a peer during structured play twice weekly.

Section F: Special educational provision

- **Literacy Support:** Daily 20-minute small group intervention focusing on multisensory phonics and structured writing frames.
- **Assistive Technology:** Access to a laptop with speech-to-text software for extended writing tasks.
- **Environment:** Provision of noise-canceling headphones for use during independent work and assembly.
- **ASD Support:** Use of visual schedules for all transitions and "pre-warning" of changes to the daily timetable.

Section G: Health provision

- Access to a sensory room or quiet space when sensory overload occurs.
- Annual review of sensory profile by the school's SENCO in consultation with the Occupational Therapy advisory service.

Section H1: Social care provision (CSDPA 1970)

- Access to after-school social skills groups to facilitate peer interaction in a controlled environment.

Section H2: Additional social care provision

- Support for parents to implement visual communication strategies at home to ensure consistency between home and school.

Section I: Placement

[Name of School], a state-funded primary school.

Section J: Personal budget / direct payments

Not applicable at this time.

Section K: Assessment evidence and advice

- Educational Psychologist Report (dated [Date])
- Speech and Language Therapy Assessment (dated [Date])
- School Progress Reports (Autumn/Spring terms)
- Parental and Student Consultation Records
