

Report Number: 392

SEN: Profound & Multiple Learning Difficulty

EHCP REPORT #392

Section A: Views, interests, and aspirations

[Student Name] is a 17-year-old young man who communicates through consistent facial expressions, body language, and vocalizations. He enjoys sensory-rich environments, particularly tactile stimulation and music therapy. His family aspires for him to transition into a high-quality adult day provision that maintains his health and wellbeing while fostering his engagement with the community. [Student Name]'s primary aspiration is to remain comfortable, safe, and included in social interactions through his preferred sensory channels.

Section B: Special educational needs

[Student Name] has Profound and Multiple Learning Difficulties (PMLD). He requires 24-hour support for all aspects of daily living. He has a secondary need of Visual Impairment (VI), which significantly impacts his ability to access the curriculum and navigate his environment. He requires a highly adapted, sensory-based curriculum to engage with learning.

Section C: Health needs

[Student Name] has complex health needs associated with his PMLD, including the requirement for postural management, specialized seating, and assistance with feeding and hydration. He requires regular monitoring of his visual health and environmental adaptations to accommodate his VI.

Section D: Social care needs

[Student Name] requires support to access community facilities and maintain social inclusion. He requires a package of care that supports his transition to adulthood, ensuring his safety and wellbeing during out-of-school hours and respite periods.

Section E: Outcomes sought

1. To increase [Student Name]'s engagement with sensory stimuli by 20% over the next 12 months.
2. To maintain postural stability and skin integrity through consistent implementation of his physiotherapy program.
3. To successfully transition to a post-19 adult social care placement that meets his complex sensory and physical needs.
4. To improve his ability to track objects or light sources within his visual field through targeted VI interventions.

Section F: Special educational provision

- A highly differentiated, sensory-based curriculum delivered in a 1:1 or 2:1 ratio.
- Regular input from a Qualified Teacher of Children and Young People with Vision Impairment (QTVI).
- Access to hydrotherapy and rebound therapy to support physical development.
- Use of Intensive Interaction techniques to develop communication.
- Specialized equipment, including high-contrast resources and tactile learning aids.

Section G: Health provision

- Annual health reviews and multi-disciplinary team meetings.
- Implementation of a physiotherapy and occupational therapy program, reviewed termly.
- Specialist nursing support for feeding and medication management.
- Regular VI clinic appointments and implementation of environmental modifications.

Section H1: Social care provision (CSDPA 1970)

- Provision of short-break services to support family wellbeing.
- Support from a social worker to coordinate the transition to adult social care services.
- Provision of specialist equipment for home use to ensure safety and postural support.

Section H2: Additional social care provision

- Access to community-based sensory activities to promote social inclusion.
- Transport assistance to and from the educational placement.

Section I: Placement

[Student Name] is placed at a state-funded special school for pupils with complex needs, which provides the necessary specialist environment, staffing ratios, and therapeutic facilities to meet his PMLD and VI requirements.

Section J: Personal budget / direct payments

A personal budget is available to support the provision of short-break services and specific social care equipment as identified in the care plan.

Section K: Assessment evidence and advice

- Educational Psychologist Report (dated [Current Year]).
- Physiotherapy and Occupational Therapy assessment reports.
- QTVI assessment and environmental audit.
- Annual Review meeting minutes and parental/carer contributions.
- Medical reports regarding complex health and nutritional needs.
