

Report Number: 411

SEN: Profound & Multiple Learning Difficulty

EHCP REPORT #411

Section A: Views, interests, and aspirations

[Name] is an 8-year-old boy who communicates his preferences through facial expressions, vocalizations, and body language. He enjoys sensory stimulation, particularly tactile play with textured fabrics and listening to rhythmic music. His parents aspire for him to develop a reliable method of intentional communication, to increase his independence in personal care, and to be fully included in his school community.

Section B: Special educational needs

[Name] has Profound and Multiple Learning Difficulties (PMLD). He requires high levels of support to access the curriculum. He has a secondary need related to Physical Disability (PD), resulting in significant mobility restrictions and a requirement for specialist equipment to maintain posture and access learning. He requires support with all aspects of daily living and communication.

Section C: Health needs

[Name] requires support with postural management to prevent contractures and maintain skin integrity. He requires a managed feeding plan to ensure safe swallowing and nutritional intake. He requires regular monitoring of his physical health to manage his complex physical disability.

Section D: Social care needs

[Name] requires support to access community activities and short breaks to support his family. He requires adaptations to his home environment to ensure his safety and to facilitate his physical care needs.

Section E: Outcomes sought

1. [Name] will develop a consistent, intentional method of communication (e.g., eye-gaze or switch-access) to express basic needs and choices.
2. [Name] will increase his tolerance for different sensory experiences and engage in 1:1 interaction for sustained periods.
3. [Name] will demonstrate improved postural stability through consistent use of prescribed equipment.
4. [Name] will participate in personal care routines by anticipating steps and showing increased cooperation.

Section F: Special educational provision

- A highly differentiated curriculum delivered through a sensory-based approach.
- Daily access to speech and language therapy programs integrated into classroom activities.
- 1:1 support from a teaching assistant trained in PMLD and manual handling.
- Access to assistive technology, including eye-gaze systems and cause-and-effect switches.
- Regular physiotherapy and occupational therapy programs implemented by school staff.

Section G: Health provision

- Annual review of postural management plan by a physiotherapist.
- Ongoing monitoring by a speech and language therapist regarding safe swallowing and feeding.
- Provision of specialist equipment (e.g., standing frame, specialist seating) as recommended by the OT.

Section H1: Social care provision (CSDPA 1970)

- Provision of specialist equipment for the home to assist with moving and handling.
- Access to a short-breaks service to provide respite for the family and social opportunities for [Name].

Section H2: Additional social care provision

- Support from a social worker to coordinate multi-agency care and ensure family access to relevant benefits and support networks.

Section I: Placement

[Name] will attend a state-funded special school that specializes in meeting the needs of pupils with PMLD and physical disabilities.

Section J: Personal budget / direct payments

A personal budget is not currently requested; however, the family may request a review of this at the next annual review to facilitate specific short-break activities.

Section K: Assessment evidence and advice

- Educational Psychologist Report (dated [Current Year])
- Speech and Language Therapy Assessment
- Physiotherapy and Occupational Therapy Reports
- Annual Review Meeting Minutes
- Parental and Student Views (Section A)
