

Report Number: 476

SEN: Social, Emotional and Mental Health

EHCP REPORT #476

Section A: Views, interests, and aspirations

The student enjoys digital design and competitive gaming, which he uses as a primary outlet for social interaction. He aspires to attend a local college to study graphic design. He expresses a desire to feel "less overwhelmed" in busy corridors and wants to be able to manage his anxiety independently so he can participate in group projects without withdrawing.

Section B: Special educational needs

The student has identified needs in Social, Emotional, and Mental Health (SEMH) and Autism Spectrum Disorder (ASD). He experiences significant difficulties with emotional regulation, sensory processing in high-stimulus environments, and social communication, particularly regarding non-verbal cues and peer conflict resolution.

Section C: Health needs

The student experiences heightened physiological anxiety responses, including increased heart rate and sensory overload, which impact his ability to remain in the classroom. He requires support to manage these physical manifestations of his SEMH needs.

Section D: Social care needs

The student requires support to develop age-appropriate social independence. He needs guidance to navigate community settings safely and to build resilience when facing social rejection or misunderstanding.

Section E: Outcomes sought

1. To improve emotional regulation, reducing the frequency of withdrawal from lessons by 50% over the next 12 months.
2. To develop independent use of sensory regulation strategies within the school environment.
3. To successfully participate in a collaborative group project with peers, supported by structured social scripts.
4. To articulate his needs and feelings to staff using a preferred communication method.

Section F: Special educational provision

- Access to a designated "quiet zone" for sensory regulation during unstructured times.
- A visual timetable and "early warning" system for changes to the school routine.
- Weekly 1:1 sessions with a Learning Mentor to work on social communication and emotional regulation strategies.
- Access to a laptop for written tasks to reduce the impact of fine motor fatigue and anxiety.
- Staff training on ASD-friendly communication styles (clear, concise, literal).

Section G: Health provision

- Access to school nursing support for monitoring anxiety-related physical symptoms.
- Referral to CAMHS for evidence-based cognitive behavioral strategies to manage anxiety.

Section H1: Social care provision (CSDPA 1970)

- Provision of a personal assistant or mentor for 2 hours per week to support community-based social activities and build confidence in public spaces.

Section H2: Additional social care provision

- Access to local youth groups with a focus on digital design to foster peer connections in a structured, low-pressure environment.

Section I: Placement

[Name of School], a state-funded secondary school with an integrated resource base for students with ASD and SEMH needs.

Section J: Personal budget / direct payments

A personal budget is not requested at this time; the provision is met through the school's delegated funding and

local authority commissioned services.

Section K: Assessment evidence and advice

- Educational Psychologist Report (dated 12/02/2024)
- School SENCO Progress Review (dated 15/03/2024)
- CAMHS Consultation Summary (dated 20/01/2024)
- Parent/Carer and Student Views (collected 05/04/2024)
