

Report Number: 486

SEN: Other difficulty or disability

EHCP REPORT #486

Section A: Views, interests, and aspirations

Leo is a curious and energetic three-year-old who enjoys sensory play, particularly water play and building with large blocks. His parents aspire for Leo to develop the confidence to initiate play with his peers and to be able to communicate his basic needs independently. Leo's current goal is to transition between nursery activities with reduced anxiety and to engage in shared attention tasks for short periods.

Section B: Special educational needs

Leo has a primary need of 'Other difficulty or disability' (presenting as significant sensory processing differences) and a secondary need of Speech, Language, and Communication Needs (SLCN). He experiences challenges with auditory processing, expressive language delays, and difficulty regulating his emotional responses to changes in the nursery environment.

Section C: Health needs

Leo requires support with sensory regulation to prevent sensory overload. He does not have complex medical needs but requires a consistent approach to managing his sensory environment to ensure he remains regulated and ready to learn.

Section D: Social care needs

Leo requires support to develop social interaction skills. He needs adult-led facilitation to navigate peer-to-peer play and to develop the social communication skills necessary for nursery integration.

Section E: Outcomes sought

1. Leo will use a consistent communication system (e.g., PECS or visual symbols) to express his needs to staff and peers.
2. Leo will engage in a shared activity with a peer for 5 minutes with minimal adult prompting.
3. Leo will demonstrate increased emotional regulation by transitioning between two nursery activities using a visual schedule with no more than one verbal prompt.

Section F: Special educational provision

- Access to a high-ratio nursery environment with a key worker trained in sensory integration strategies.
- Daily use of visual timetables and 'now/next' boards to support transitions.
- Weekly 1:1 sessions with a Speech and Language Therapist (SLT) to develop functional communication.
- Implementation of a sensory diet, including access to a quiet 'calm-down' space when required.

Section G: Health provision

- Annual review of sensory processing needs by an Occupational Therapist (OT) to update the sensory diet.
- Staff training on the implementation of sensory regulation strategies.

Section H1: Social care provision (CSDPA 1970)

- Provision of short-break support to allow the family to engage in community activities that support Leo's social development.

Section H2: Additional social care provision

- Access to local authority-funded parent support groups to assist with home-based strategies for communication and regulation.

Section I: Placement

State-funded nursery attached to a mainstream primary school, providing a structured environment with integrated SEN support.

Section J: Personal budget / direct payments

A personal budget is not requested at this time; provision is to be met through the local authority's core funding for the nursery setting.

Section K: Assessment evidence and advice

- Educational Psychologist Report (dated 12/09/2023)
- Speech and Language Therapy Assessment (dated 05/10/2023)
- Nursery Progress Summary and Observations (dated 20/11/2023)
- Parental contribution and aspirations statement (dated 15/11/2023)
